

# THE FABRICATOR

## Editorial Guidelines & Features

Here you will find a list of The Fabricator's core features. Each month we also run topical features which are either written by our editorial team or commissioned from external writers.

The Fabricator is the only publication covering the window, door, conservatory, glass unit and facade sector that runs externally sourced features specifically on manufacturing best practice principles.

We are always happy to discuss feature submissions with potential contributors. We will require a brief synopsis of the feature idea by email to the editor along with full contact details.

We would be obliged if contributors also provide suitable photography and/or illustrations.

### THE FABRICATOR

#### January

Health, Safety & Personnel  
Energy & Environment

#### February
