

Coming this summer

Welsh aluminium fabricator, Dudley's Aluminium, has begun work on new student accommodation in Exeter. The project will redevelop the city's former bus and coach station into state-of-the-art accommodation and will open in the summer of 2019.

Dudley's Aluminium is currently working on a similar project in Exeter for Global Student Accommodation. Past projects for the Welsh fabricator include the development of Cardiff's £4m Central Square.

Dudley's secured the half a million pounds contract with Sir Robert McAlpine. The aluminium fabricator will install high-quality Kawneer curtain walling and doors, the modern student accommodation facility will also receive solar shading

Speaking about the new project, Colin Shorney, managing director of Dudley's says: "We are thrilled to be working on this project with Sir Robert McAlpine. It aligns with our extensive commitment to working within the education sector and we are pleased to support the construction of student accommodation in Exeter."

The new student accommodation will see high-quality facilities, including 25,000sq. ft of shops, restaurants and bars.

Dudley's has a reputation for quality and has been granted several industry-related accreditations. The company is CHAS and Achilles accredited, Constructionline registered and certified to manufacture

Secured by Design products.

Since 1993, Dudley's Aluminium offers clients full in-house design and production facilities. The company has completed many successful and prestigious projects within the education, health, commercial, retail and defence sector throughout the UK and Channel Islands. □

Swisspacer, has introduced an online ordering facility. The website offers a 24/7 way to order warm edge spacers, Georgian bars and accessories.

The online ordering tool makes it simple to select the required product, followed by colour and width. Past orders can be added to the basket to facilitate repeat ordering.

Andy Everett, national sales manager at Swisspacer, says: "Our new online ordering tool is a fantastic development. We are making it easier than ever for sealed unit makers to get everything they require from their warm edge supplier. Early feedback from customers has been positive with the system working smoothly and reliably. As soon as an order is placed, customers receive an email confirmation and their delivery timeframe – it's simple, quick and efficient." □
