

Simple CPS Switching The Certass Way

Competent Person Schemes (CPS) are a big part of every-day working life for many trusted tradespeople and self-certifying installations comes with the job. That's why, we at Certass know just how important it is to make switching from an existing CPS as simple and as straightforward as possible.

Trusted tradespeople

For many trusted tradespeople, it's coming up to the time of year for competent person scheme renewals. You may be thinking, it's easy enough to let your existing CPS auto-renew but you could be missing out on lots of extra benefits by not shopping around.

Designed by tradespeople, for tradespeople

You'll find that lots of competent person schemes are fit for purpose as the certification bodies offer the service that is required of them – but with no added value or benefits for tradespeople.

Our schemes are designed by tradespeople, for tradespeople, so we can be sure that you'll get the best schemes available, with the added help of a friendly support team.

Our surveyors who carry out your inspections are experts in their field and are there to offer you invaluable help and support so that you can get the most out of your business. We're always on the end of the phone too!

Mobile friendly

To save you lots of time and effort, we've made it really easy to

self-certify your jobs when you're out and about, you can register each job on our website or mobile site with the Member's IT System. It lets you see all your information at once, as well as bulk upload lots of jobs at once from your own database.

Helping you switch to Certass

We can help you to transfer from your existing CPS super-fast. You'll be ready to register your installation within 48 hours.

The process begins with a simple online form - when we receive your paperwork, you'll be able to register jobs within two days and your completed jobs will be certified as soon as your on-site audit has been signed off.

Simple CPS

We want to help you stand out as a reliable trustworthy installer, that's why our CPS is designed to be as simple as possible, so you can focus on providing great quality service to customers.

How does the Certass Competent Person Scheme work?

Our CPS helps installers to self-certify their work to current Building Regulations as an alternate method to using Building Control. It's a voluntary scheme but helps verify to homeowners that your work always meets the highest standards.

As a Certass member, our team will carry out audits to check your skills as a competent tradesperson. When you first join, and every year thereafter, we'll complete a 'desktop audit', which will check through your membership,

including the skills of your workforce, insurance, legal status and contact information.

We'll carry out an onsite audit when you first join and then onwards every 3-5 years. This gives us a chance to meet you and your team in person and check the quality of your work with an on-site audit of an installation. We'll also check your qualifications, a sample of jobs and also ensure that your complaints logs and records are kept up-to-date.

To make sure work done by our members meets the high standards of our Competent Person Scheme, we also check a sample of registered work each year.

Added benefits

By registering with Certass' Competent Person Scheme, you'll be able to take full advantage of our extra benefits. These include access to the Trust Mark Scheme and low-cost public liability and business insurance, so you can keep your installer requirements all under one certification body.

Switch Today

Switching to Certass costs as little as £23.95 for membership per month, and as an added bonus, we're waiving our joining fees for installers who're switching from their existing CPS to Certass who register before 15 January 2018. 

If you need any further information, call t. 01292 292 095 or email membership-sales@certass.co.uk
