

FIT Show 2025 – You Just Have To Be Part Of It

Over the last decade, the FIT Show has firmly established itself as the No.1 trade show for the UK windows, doors, glass, hardware, components & roofing industry. Whether you manufacture, install or specify the latest products for commercial or domestic projects, you need to be part of the biggest event of the year – FIT does not return until 2027.

The FIT Show is nearly back for another outing – and won't be seen again until 2027. You just have to be there – so book your free tickets NOW!

www.fitshow.co.uk

It takes place at the NEC Birmingham from 29 April to 1 May 2025. There is late night opening on the middle day (Wednesday 30 April) so visitors don't need to commit a whole working day to coming along – or visitors who will make a day of it can arrive a bit later and stay on and enjoy the party feel and free drinks and nibbles that a number of exhibitors will offering. There will also be pay bars within the halls that are open for the duration for a quiet drink or bite to eat or for meetings and networking.

You just have to be there

If you are an installer or fabrica-

tor specialising in home improvement products, this is your must-attend event to stay ahead in the fast-paced world of windows, doors, flat glass, hardware, components, and roofing solutions.

FIT Show event director, Nickie West says: "Whether you're looking for the best in energy-efficient windows, doors or flat glass, the show offers a comprehensive view of the market's offerings. A trip to FIT will allow you to discover cutting-edge solutions, expand your portfolio, get the best deals and stay ahead of the curve."

Bigger than ever

The 2025 outing of FIT is going to be the biggest edition to date, with an extra hall full of brands (NEC Halls are massive – so this is a huge expansion) to see and connect with, as well as the promise of thousands of the latest products and innovations

all on display under one roof.

In the month of February, brands such as Supalite Tiled Roof Systems, Bereco, Clayton Glass, Hegla, Forel, Invisifold, Victorian Sliders, Kean Tools, Quickslide and Novoferm all committed to taking major stands.

A full Exhibitor List with Stand Locations will be published in the April Edition of The Installer Magazine.

The Installer & The Fabricator

Will have a major presence at the event with its Take a Break stand. Our coffee lounge will be open to everyone, with a sectioned off area for our own VIP Guests. If you want to chat to either our editors or sales team – all you have to do is ask.

West adds: "I'm delighted to be able to deliver a record-breaking FIT Show with the help of such loyal partners as TheInstaller.pro & The Installer Magazine & and The Fabricator Magazine & TheFabricator.pro

"This show is a real indicator of the strength and resilience of the sector. The businesses that are investing in marketing now and supporting their customers by having a presence, are the ones who will reap the benefits over the coming months and help secure their pipelines until FIT Show 2027."

Why Is It Essential To Plan A Visit To FIT Show?

This is your chance to explore the full supply chain in one place, compare products side by side and future-proof your business with innovations, while meeting top manufacturers and distributors, finding exclusive trade deals and building relationships that can drive your business forward. Yes indeed – it is essential to come along.

This spring will be your biggest chance to get to grips with every innovation, every new product and every new sales opportunity in the window and home improvement sector.

So why is it essential?

Stay ahead of the curve

Discover the latest in lightweight roofing, rooflights, lanterns, fascias, soffits, cladding, and more from industry leaders such as Ultraframe, Supalite, Made For Trade and First Glass Roofs.

Live installation demonstrations

The Installer Demo Zone will offer live demonstrations of roofing and roofline installations. Learn expert techniques, best practices and tips on compliance from the pros.

Hands-On with the latest tools & accessories

Not only will you be able to see the latest products up close, you will be the very first to see them. FIT exhibitors are planning more new product launches at FIT Show than any previous year. You'll be able to test out the latest products as well as watch live demos. And if you're feeling confident in your own abilities, there will be opportunities for you to roll up your sleeves and take on the experts with live time challenges. You might even win some prizes!

The latest tools & accessories

Try out the newest workwear, sealants, adhesives, fixings, and specialist tools designed to enhance your work efficiency and quality.

Regulations & sustainability

With changes to Part L and updates on building regulations, FIT Show, GGF & FENSA have curated a CPD-certified learning programme that will keep you informed on thermal efficiency, sustainability, and industry standards.

Exclusive show offers

Whether you're working on domestic or commercial projects, FIT Show 2025 is the place to find cutting-edge products that will help you stay ahead of your competitors and take advantage of exclusive promotions, discounts and

product bundles that you can only access at the show.

FREE to Attend

FIT Show is completely FREE to attend. Register for your tickets to avoid the queues of people trying to sign-in on the day.

Venue

The National Exhibition Centre Birmingham, B40 1NT, UK
